Suggestions if any for further improvement

34 responses

No

No

Focus should b more on doing practical and hands on

Personality development courses should be introduce in order to enhance student personality

Required improvement in Electives subjects examination system.

-> each elective subject exam held atleast total of 400 mark, because we face some problems regarded it.

-> about honor subject it's enough.

-> our overall examination required more then 2400 of mark so that it better for future.

Yes computer lab and class room for cs students

More modern and latest technologies should be incorporated into the curriculum.

I would personally love if more attention is given to sports and other activities which take place and make sure every student is aware of the events. Many times I missed participating in many badminton and other sporting events because I wasn't aware about the same. It would be better college uses the notice board for such things as well

Always be high

Teaching faculty were most co-operating.

Library

Digital library shuld be built in the college

A digital library should be established in the college

Best college in Western odisha..

College

Introduce pg in all honours subject.

Curriculum should be precise and accurate so that it will help students understand their future opportunities.

1

Regular practices in lab work may leads to help students if they preferred further studies after B.sc

1 .

They have to improve the drinking water system

Individual department for every subject

College building and area

New class room,boys hostel,drinking water, sufficient book for library, College gate,gym,

Smart class room, library avilal subject related topics, and their infrastructure and build

Infrastructure development should be done.

There is most required to sufficient staff and student facilities to grow there internal and external quality...student are the futute for a nation but every time neglect by CLG faculties....there is lack of basic need basic facilities for alround development....

Improve the technological study

Sports

Yes

nice
