Semester and internal exam should held in online mode

The major problem is water. As well as not available enough book for Electives subject in the library. Only a few books are available.

Severe water problem in campus, not any kind of extra curricular activity, careless about practical classes, insufficient of digital classroom and entertainment is also necessary for academic development

Very much negligence of online classes, no proper or regular classes.

There is no such availablity of books according to syllabus specially for physics. Lots of student don't know about seminar and unable to participate, so if the department prepare the students previously then students will get a chance to increase their quality of education.
